

“Toasting the Perfect Blend”

Nadalié Australia and RedOaker pty ltd now bring together two of the best in class wine treatment product ranges available internationally ... here's why.

“After multiple tastings with our customers using the Nadalié Oak Add Ins it soon became apparent the best results were nearly always from RedOaker, hence Nadalié have since invested in several RedOaker tanks as the best vehicle to show case what can be achieved with the Nadalié Oak range for our customers”

Vincent Roué, Nadalié - Australasian Manager

“I have long been impressed with the positive feedback from winemakers who have been using Nadalié's Oak Add Ins for many vintages now. Nadalié's oak resources, knowledge and research is second to none. I think there's a clear and natural synergy here for us and our customers to experience the best of both worlds”

Neal Palmer, RedOaker Pty Ltd - Director
